

Greenwich

Apple Regional Training Centre

Training Programme 2017-18

Apple Regional Training Centres across the UK deliver courses to build the skills and confidence of educators to use Apple technology inside and outside the classroom. Apple Regional Training Centres create community to share best practice and support teaching staff to attain Apple Teacher status, a professional learning programme designed to support and celebrate educators.

Greenwich Apple Regional Training Centre, at Heronsgate Primary School, invites you to attend any of the following courses to help you make better use of Apple technology in your school. Come along to as few or as many of the FREE training courses during the year and see the impact iPad can have in the classroom!

Introduction to iPad

Tuesday 26th September 2017, 4pm–5pm

Experience how iPad can open up new, engaging ways of teaching and learning. During this twilight session, you'll learn how to get started with iPad, work with iPad, explore learning resources and even have the opportunity to earn some Apple Teacher badges.

Enhancing Productivity with iPad

Wednesday 18th October 2017, 9am–12pm

Learn how iPad can help students' learning go deeper through getting organised, planning and sharing their work and documenting and reflecting. In this half-day session, develop the skills needed to deliver powerful learning experiences with iPad in the classroom.

Mastering Maths with iPad

Tuesday 28th November 2017, 4pm–5pm

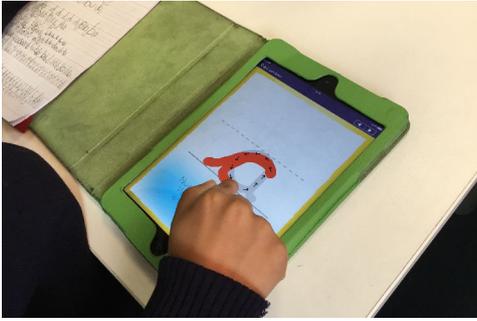

Join us for this twilight session where we will look at ways to help your children deepen conceptual understanding and procedural fluency in maths using iPad. Discover a variety of apps and approaches can help your students 'master' mathematics.

Inspiring Writing with iPad

Tuesday 23rd January 2018, 4pm–5pm

The best writing happens when students are engaged and interested in the topic. This twilight will look at a range of apps and approaches using iPad, including effectively using iMovie and Apple Clips, to help take your learners' writing to the next level!

Learning with iPad

Wednesday 21st February 2018, 9am–4pm

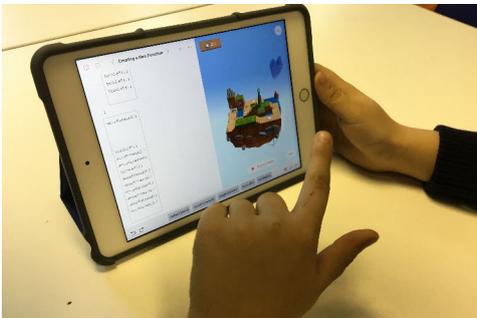

Join us for a day discovering the extraordinary everyday learning potential of iPad. With a range of speakers and workshops, we will look at how iPad can be used to engage and motivate learners across the whole school curriculum.

Deploying and Managing iPad

Wednesday 28th March 2018, 9am–12pm

Be equipped to make best use of the range of tools available for deploying and managing iPad in Education. During the half-day session we will look at setting up devices, users and content with Apple School Manager, making use of MDM and managing iPads in the classroom.

Coding with Swift Playgrounds

Tuesday 15th May 2018, 4pm–5pm

This twilight session will look at how using iPad can help students develop the essential learning skills of problem solving and computational thinking through coding. Experience the revolutionary Swift Playgrounds app that gives everyone the opportunity to learn how to code.

Fostering Creativity with iPad

Wednesday 20th June 2018, 9am–12pm

Explore how iPad can support learners with the three phases of the creative process - brainstorming, gathering inspirational resources and telling compelling stories. This half day session will equip you to deliver powerful learning experiences with iPads in the classroom.
